

Sage HRMS 2016 product availability

Sage HRMS 2016 is now available for download.

Automatic delivery of software updates is just one of the many benefits customers enjoy as a part of Sage Business Care. If your customers are using a previous version of Sage HRMS, they should upgrade to Sage HRMS 2016 to take advantage of all this product has to offer.

The software can be downloaded from the [Sage Knowledgebase](#).

Sage HRMS 2016 highlights include:

- **An improved interface** providing easier navigation between Sage HRMS and Sage Employee Self Service (Sage ESS).
- **Single sign-on functionality** so you can log on once with access to both Sage HRMS and Sage ESS.
- **The ability to log on to Sage ESS as a specific employee** (controlled by security settings).
- **Connected services** to easily access solutions added on to your core HR program.
- **Enhanced photo importing capabilities and document storage** in Sage HRMS.
- **Support for the provisions of the Affordable Care Act** that allow you to generate ready-to-file forms 1094-C and 1095-C from within your HR or payroll program.
